

CROITABLE ESMACH ET/PR

Refrigerated top table Pastry

Croitable Esmach is a refrigerated top table, equipped with an exclusive patented electronic control of temperature and humidity, which guarantees the optimal conditions for managing all the specialties of bakery professionals.

Features

Croitable Esmach is made of:

- Austenitic stainless steel top with very low condensation for all uses;
- Multi-alloy sandwich cooling block;
- Plug & Play
- Removable packaging
- Stainless steel structure
- Rapid temperature transmission
- Enlarged thermal flywheel

Construction

- Refrigerated table
- Controlled temperature (+3°C +20°C)
- Recommended operating temperature +10/16°C
- Works in warm environments up to 35°C
- Compact dimensions for easy transport and installation
- Patented and certified product tested by leading industry professionals for your laboratory

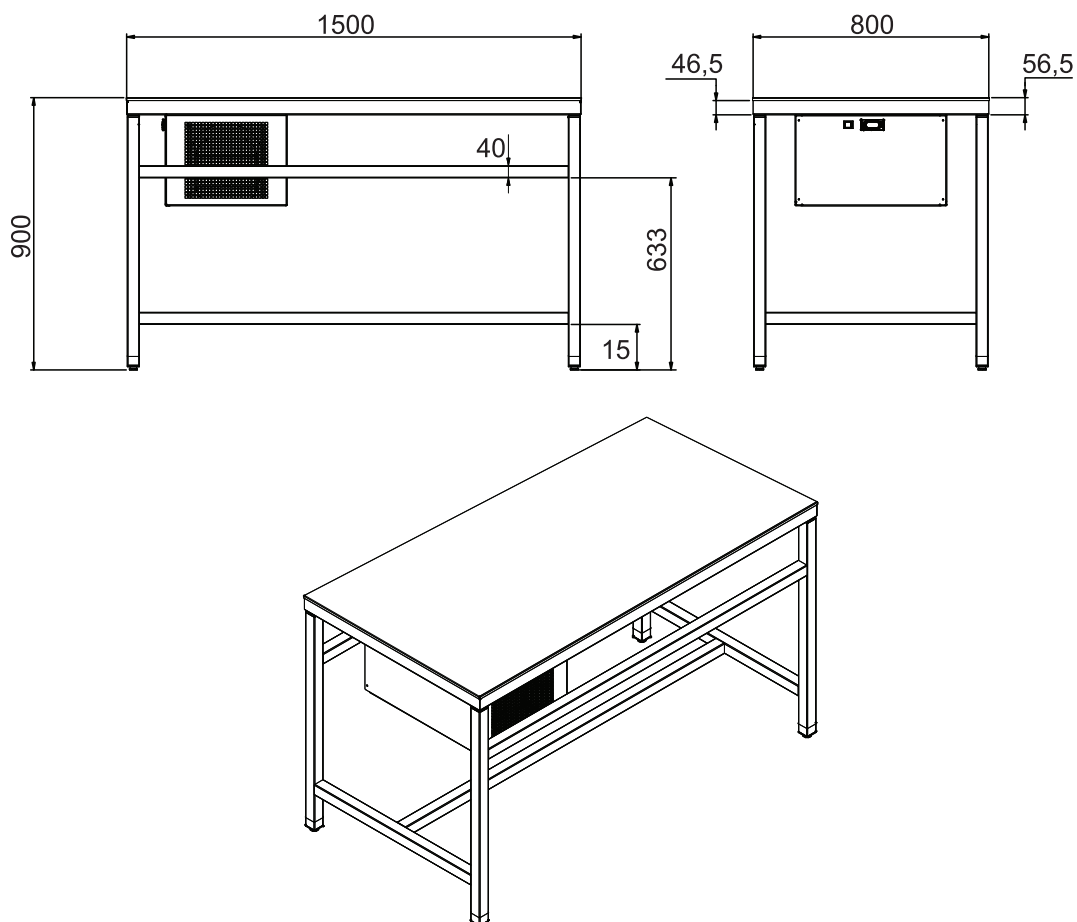

Options

- Available in various sizes upon request
- 4-wheel kit (2 with brakes)
- Customizable with a blast chiller

Caratteristiche tecniche/Technical features

DATI TECNICI/TECHNICAL DATA		
Dimensioni/ Size	mm	1500 X 800 X H 900
Tensione alimentazione/ Supply voltage	V-Hz	200/240/50 Hz
Potenza assorbita/ Absorbed power	W	525
Massa/Mass	Kg	100,2
Gas refrigerante/coolant		R 134 A
Temperatura ambiente / room temperature	°C	35
